Adaptable and experienced Frontend Developer with a focus on crafting visually engaging and highly usable web applications. With over 2 years of hands-on experience, my proficiency lies in HTML, CSS, JavaScript and React, as well as great desire to expand my knowledge of TypeScript and Redux. My strong communication skills and my collaboration with UI/UX designers and other developers, contributing to continuous value creation. My professional journey is characterized by constant learning, innovation, and a commitment to delivering top-tier web solutions.

Skills

HTML5, JavaScript, CSS, SASS, React, TypeScript, Git, Bootstrap, Adobe Photoshop, Figma.

Written and Verbal Communication, Leadership, Creativity, Time Management, Teamwork, Independent Problem Solving. Languages: English, Russian and Ukrainian.

Professional Experience

PathwayPro

Frontend Developer | June 2023 – September 2023

- Collaborated in a multidisciplinary team to develop a mentorship platform, implementing two core user stories: mentor-seeking users and prospective mentors, within a tight 3-month timeframe.
- Employed Agile methodologies, including daily stand-ups, retrospectives, and planning sessions, ensuring efficient task tracking and team communication through Jira and Discord.
- Rapidly acquired proficiency in Typescript and Redux, integrating them into the project to meet the platform's complex logic requirements.
- Contributed to a user-friendly interface, receiving positive feedback from preliminary surveys highlighting the platform's ease of navigation and intuitive design.
- Ensured high code quality through rigorous pull request reviews, collaborative feedback, and seamless Git operations, resulting in a robust codebase with minimal QA-detected issues.

AffStar

Frontend Developer | October 2020 – November 2022

- Developed responsive websites using HTML, CSS, JavaScript, and Vue, resulting in a 20% increase in sales through enhanced user experience.
- Collaborated with designers and project managers, successfully completing 100+ product websites in a deadline-driven environment.
- Tested web product functionality, achieving a 40% reduction in bug counts.
- Managed project schedules by coordinating work and distributing tasks, leading to a 20% reduction in project completion time.
- Advocated for the integration of emerging technologies based on business goals, ensuring high-quality and well-documented code.
- Optimized the company's product for the Latin American market, boosting sales by 15% annually.

Education

Bachelor's Degree, Moscow State University
